# Fine Tuning with the Five Star Tool

## April 21, 2021

LeadingAge Quality Metrics is a member-benefit website with interactive data tools to help members analyze how they measure up to their peers, demonstrate value, and can improve performance. This session will provide attendees with insights on how to make best use of the Five Star report and the Trends report in each of these areas. The webinar will start with a primer on each report and then provide a case study of how one member has become a 'mega' user of their information.
