# REVAMPING PLANS OF CARE, IDG MEETINGS, AND ASSESSMENTS

May 20, 2021

A recent Joint Commission Deemed Status Hospice Survey resulted in condition-level citations related to deficiencies in plans of care and interdisciplinary group (IDG) meetings. The team, with every discipline represented, completely revamped their care planning and IDG meeting process. This monumental change resulted in plans of care with individualized, patient centered, and measurable goals and IDG meetings with efficient yet effective summary templates that impressed future surveyors. They also adjusted their assessment process and documentation to capture symptom severity on every visit, directly reflecting the status and progress towards the goals in their care plans. Learn how to develop your own step-by-step process to achieve compliance with regards to plans of care, IDG meetings, and assessments.
