

Flourishes from the Med Beds

Dec. 8 Tuesday 2020

The nurse at OSU East hospital directed me to the big chair. I was preparing for the careful hook up for a 1-hour flush. I'm dealing with COVID-19. I was given *bamlanivimab* infusion by vein.

Now, I'm back at Westminster-Thurber in my "confinement" room. What a year!

Hurry, Hurry

Dec 16 OUT THE DOOR,

You're not wanted any MORE

A positive 14-day quarantine from Covid-19 is DONE,

So off to room 246 on the RUN!

Hurry up and wait is the STYLE,

Will I get my stuff in a WHILE?

A shot of hope is in the AIR,

All here have good CARE.

A focus on TWENTY TWENTY-ONE

The Vaccine is for EVERYONE.

A new year that looks so BRIGHT,

A bid from me to make it RIGHT!

The New Normal

Ohio Living has a new normal

It begins with the use of the mask,

6 feet apart, and yes, wash hands

Our residents are mostly vaccinated

An illusion of promise is in the air

The pandemic takes a 180° turn with a new strain

Hey COVID, don't mess with me!

I'm on my third-thirty, don't you see?

Step right up to the year ahead.

It's overtime, they said

Band-Aids

Hells za poppin, what's there to do?

How about Conductorcise?

Exercise on the screen with David Dworkin.

Balloon Volleyball is a given.

Bible Study on Tuesday

Bingo (I think 2 cards per is enough)

Want to read? Stop in. I will fix you up.

Greetings from Health Center,

Ohio Living Westminster-Thurber

A flourish is a Band-Aid along the way to tomorrow.

From the past, the future to see compelling dedication to make it be.

Oh, that therapy is here and then the third vaccine is near.

A promise of hope in the blue sky, because we want the clouds to pass
by.

Step right up, my circus is next
