

LEAD THE WAY IN QUALITY DEMENTIA CARE.

Apply now for the Alzheimer's Association® Dementia Care Practice Recommendations, Ohio Project, a new initiative to implement the latest approaches in person-centered dementia care.

Aligned with the Association's evidence-based Dementia Care Practice Recommendations — the benchmark for quality care across the disease spectrum — this project is designed to help long-term care communities (Nursing Homes and Assisted Living) improve their person-centered care practices to enhance the quality of life for people living with Alzheimer's or other dementias and their caregivers.

Care communities participating in this project will receive either:

- **Access to an Association Care Community Coach**
- **DCPR resources**
- **\$1,000 stipend.**

- **One year of essentiALZ® — Alzheimer's Association Training and Certification for all staff**
- **\$1,000 stipend.**

Help position your care community as a leader in the field by adopting the latest approaches in evidence-based, person-centered dementia care.

Space is limited — contact dcprcoach@alz.org to get started.
